Darwin Tulips, Novelties and Species.

The Darwin Tulips

The prices on the following special list of Darwin tulips we quote very low to enable our patrons with even moderate means to take advantage of these very low prices. This gives us a chance to introduce these grand novelties in a short period of time, and therefore they must be ordered not later than July 25th as we do not carry these in stock during Fall. For Darwin tulips we have in stock during balance of the season, see page 6.

Colors range from the palest lilac to black, and from pure white to dark red. Darwin tulips are the strongest of all and bloom from 3 to 4 weeks later than the early tulips. They are especially beautiful when cut for vases, as they have strong stems from two to three feet high.
